

# BALIKBUHAY WOMEN'S CENTER

## PROJECT TYPE

Architectural Presentation Boards

## INDUSTRY

Institutional / Social Architecture

## DELIVERABLES

Presentation Boards, Data  
Visualization, Architectural Graphics

Architectural boards and presentation slides for Balik-Buhay Women's Center, a project proposing a reintegration support center for female OFWs in Cavite, using liminality as a framework for spatial design. The visual system centers on femininity, liminality, and biophilic wellness, using pink as the primary color, green & warm sunset tones as secondary accents, and curved organic forms to represent transition, connection, and nature as healing.
